

Scenarios to Strategy Inc.

S2S helps organizations have important conversations

A few examples of recent **S2S** engagements include:

- ✓ A **full scenario planning engagement** helped **Emera Energy** expand its thinking on the future and “wind tunnel” its key strategies
- ✓ An **abbreviated scenario planning engagement** quickly built strategic alignment among the staff, Board, and working committee members of the **Canadian Energy Pipeline Association**
- ✓ **S2S** and **CERI** collaboratively developed 4 scenarios for the future of the North American energy industry, the implications of which discussed at a 1-day **multi-client workshop**
- ✓ **S2S** designed and facilitated a 1-day **strategy session** to review the scope of the technology development function at **Suncor Energy**
- ✓ **S2S** designed, facilitated and reported on a 1-day **meeting** of the **Hydrocarbon Upgrading Task Force**, an industry-government formed by **Alberta Economic Development** to maximize the bitumen upgrading opportunity within Alberta. In addition to updating the group, **S2S** designed and facilitated 6 **breakout sessions** involving more than 100 participants
